The 21st International Conference Krakow Poland June 16-18, 2024: Proceedings is a comprehensive collection of research papers presented at the conference, covering a wide range of scientific and technological topics. The conference was attended by over 1,000 scientists, engineers, and

researchers from around the world, and the proceedings contain over 500 papers on the latest advances in a variety of fields.

The proceedings are divided into 22 sections, each of which covers a specific area of research. The sections include:

- Advanced materials and technologies
- Bioengineering and biotechnology
- Chemical engineering and processes
- Civil engineering and architecture
- Computer science and information technology
- Electrical engineering and electronics
- Energy and environmental engineering
- Industrial engineering and management
- Mechanical engineering
- Medical engineering and health sciences
- Nanoscience and nanotechnology
- Nuclear engineering
- Photonics and optics
- Physics
- Renewable energy and sustainable development
- Robotics and mechatronics

- Social sciences and humanities
- Telecommunications and networks
- Transportation engineering
- Water resources and hydraulic engineering

The papers in the proceedings are of high quality and provide a valuable contribution to the scientific literature. They are a valuable resource for researchers, engineers, and scientists working in a variety of fields.

The 21st International Conference Krakow Poland June 16-18, 2024: Proceedings is available in print and electronic formats. The print version is available for Free Download from the conference organizers. The electronic version is available for free download from the conference website.

To learn more about the conference or to download the proceedings, please visit the conference website.
