Earthquakes

Earthquakes are one of the most powerful forces of nature. They can cause widespread destruction and loss of life. The book provides a detailed account of some of the most devastating earthquakes in history, including the 1906 San Francisco earthquake and the 2011 Tohoku earthquake.

Floods

Floods are another major natural disaster. They can be caused by heavy rainfall, snowmelt, or dam failures. The book provides a detailed account of some of the most devastating floods in history, including the 1931 Yangtze River flood and the 2011 Thailand floods.

A photo of a flooded city.

Plagues

Plagues are diseases that can spread rapidly and cause widespread death. The book provides a detailed account of some of the most devastating plagues in history, including the Black Death and the Spanish flu.

Famines

Famines are periods of widespread food shortages. They can be caused by drought, war, or other factors. The book provides a detailed account of some of the most devastating famines in history, including the Great Famine of Ireland and the Holodomor.
