The argumentative turn in policy analysis and planning recognizes the central role of argumentation in all stages of the policy process, from problem definition and agenda-setting to policy formulation, implementation, and evaluation. Argumentation provides a framework for understanding how different stakeholders frame issues, develop and evaluate arguments, and negotiate and debate policy options.

This book brings together leading scholars from various disciplines to provide a comprehensive overview of the argumentative turn in policy analysis and planning. The chapters cover a wide range of topics, including:

- The theoretical foundations of argumentation in policy analysis and planning
- The role of argumentation in different stages of the policy process
- The use of argumentation in participatory planning and deliberative democracy
- The development and use of argument mapping and argumentation frameworks
- The challenges and opportunities of the argumentative turn in policy analysis and planning

The Argumentative Turn in Policy Analysis and Planning is an essential resource for scholars, students, and practitioners in the fields of public policy, planning, and political science. This book provides a valuable contribution to the growing body of literature on the role of argumentation in public decision-making and offers a roadmap for future research and practice.
